World Wide Web

AI TASK

Creativity

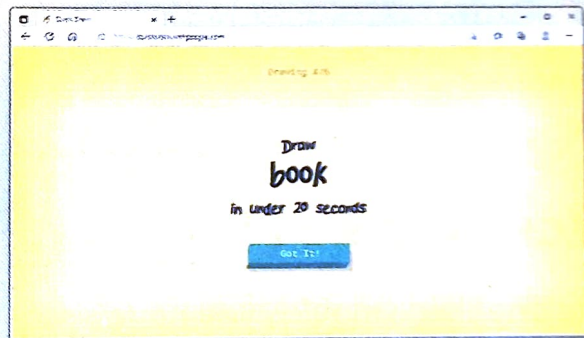

A. Open Paint and draw:

- a naturally intelligent thing.
- an artificially intelligent thing.

B. Quick, Draw! is a program to draw images on a computer. It uses AI to identify the images drawn.

With the help of your teacher, draw the images as asked by the program. You will have 20 seconds each to draw six things. Books, basketball, mushrooms, fire hydrants, ambulances, and the ocean are few examples.

1. Launch Microsoft Edge from the Start menu.
2. Type <https://quickdraw.withgoogle.com/> in the address bar.
3. Click on Let's Draw! to start drawing the images.

SDG Activity

You notice that your friend always leaves the lights ON when they leave a room. Suggest him an AI device which will help him save energy.

7 AFFORDABLE AND CLEAN ENERGY
