Question /Answers

1. What is a house?

Ans. A house is a building in which people live together happily.

2. What is a house made of?

Ans. A house is made up of bricks, stones, cement, sand, iron, steel, wood, glass, etc.

3. Why should doors and windows have wire meshes?

Ans. Wire meshes on the doors and windows stop flies and mosquitoes from entering the house.

4. What is a cloth made of?

Ans. A cloth is made of fibres.

5. What are natural fibers?

Ans. Fibres which are obtained from plants and animals are called natural fibres. For example cotton, silk etc.

6. What are man-made fibres?

Ans. Fibres which are made in factories from chemicals are called man-made fibres. For example- polyester, nylon etc.

7. Polyester and nylon clothes are used during the rainy season. Why?

Ans. Polyester and nylon clothes do not soak water and dry fast. Therefore, they are used during the rainy season.
