A Pod of My Own

A. Reference to Context

1. The narrator asked this question to his mother.
2. He was inside a pod.
3. The author thought that the pod was like other means of public transport and would stop to pick up more passengers on the way.

C. Answer these questions:

- 1 No one met the writer at the airport because his mother had told her brother that they would reach home on their own. This turned out to be good for the writer because he got a chance to ride in a pod.
2. The writer was curious to know about the new transport system because everyone was talking about it
3. Yes, the writer found the pod attractive because it looked like a tiny hatchback car to him. He liked the front windows of the pod, which made it look like the face of a honeybee with long black eyes.
- 4 Travelling by a pod saves time because pods do not get stuck in traffic jams.
- 5 Pods are safe to travel in as they are computer-driven, and so the chances of an accident are less
